Second-round leader quotes

AN INTERVIEW WITH DICKY PRIDE

THE MODERATOR: Let's talk what you have been doing well, and how excited you are about the weekend.

Dicky Pride: I'm excited about the weekend. I have just been doing a good job of holing shots. Actually I had a starting off I missed 2 two inside of 3 feet. And I was able to that out of my mind, and just keep playing and good things came around. And so I played real well and everyone is talking about the hole in 1 on No. 2, and we had it adjusted downhill 203 yards, a roll right to left, the wind into us. And I hit a 4-iron and hit it on the exact trajectory to where I wanted it to hit, on the downhill slide slope from the bunker, and kicked a little right, about two feet. And obviously it was the right kick so it went in and we're pretty happy about that.

Q (Inaudible.)

Dicky Pride: The pin was on the left side. Hang on I will tell you. The pin was 28 back and 7 from the left, and the ridge the bottom of it is 22, to get over it was about 20. And I hit it about middle of the ridge. It was kind of good

Q Have you made one out here before?

Dicky Pride: I made one in 1994, what was that called --

THE MODERATOR: The Buick Classic.

Dicky Pride: At Pine Mountain Georgia and that was a good one, I won a car. And the night before my fiancé, or were we married? She was my fiancé at the time, and she said, I really need the car. I know I won, let's see where we get to at the end of the year and we'll go from there. And I won a Buick, and I called her and I said, how about a Buick? And I want this one too.

Q (Inaudible).

Dicky Pride: I don't think I should. I think we should. I think we should talk to the Viking people and say, hey look, I'm here for you. And I would really like my wife to like me that much.

Q You got to like that hole. You hit it well yesterday?

Dicky Pride: Yes, No. 2 and my 4-iron are getting along well at this moment.

Hopefully they'll be conducive to yardage in the next few days

Q Let's talk about the amount of birdies that have been made out there, and what it might take for this weekend if weather stays the same and the course conditions stay the same?

Dicky Pride: We're not getting as much mud on the ball rough is difficult and the greens got backed and hard this afternoon. And so if we keep the same conditions the greens are going to be firmer and firmer, and they'll get a little tighter on the different pan positions, and it's going to play harder.

Q How much harder? I mean what kind of a number.

If I had a crystal ball, I could just see one day ahead I would never work another day in my life. That is all I need. I'm going to have to go out and play good. I have no idea what the other guys are doing and I know there are a lot of low scores and I don't know how many birdies everyone is making. I just got to try to take care of what I'm doing, and I need to putt a little better so, I need to go practice that a little bit when I finish here.
